Re: HPP Member Rewards Programs (Medicaid and CHIP)

Dear Provider:

Thank you for being a Health Partners Plans (HPP) participating provider.

We are contacting you today to remind you about the HPP Rewards program that encourages Health Partners (Medicaid) and KidzPartners (CHIP) members to complete targeted health condition management and preventive health care activities. Many of these health activities are tied to current measures included in our Provider Quality Care Plus (QCP) and Maternity Quality Care Plus (MQCP) programs.

Overview of HPP Rewards

All Health Partners and KidzPartners members are automatically enrolled in HPP Rewards and can earn points for completing certain health activities. Members accrue points as they complete health activities throughout the year, which they can use to shop for fun, healthy goods. We encourage providers to explain the benefits of annual checkups, preventive screenings and disease management activities.

All of the reward activities require claims to be submitted for members to receive points. Members can only get reward points for health activities completed in 2022. Members can visit HPPRewards.com to view the full list of eligible rewards, as well as redeem points for items in the HPP Rewards catalog. Please see the next page for a list of HPP Rewards activities.

For more information, please visit the Member Rewards Program section of the Provider Website at HPPlans.com/rewards or reach out to your Network Account Manager (NAM).

Thank you for being a HPP participating provider and for your anticipated partnership in providing great service to our members.

Sincerely,

Cathy McCarron

Cathy McCarron
VP, Clinical Programs, Medicaid and CHIP
